Academic path

NYU Materials Research Science and Engineering Center (MRSEC) <i>Post-doctoral Associate in Statistical Physics</i> Research activity under the joint supervision of Jasna Brujic at the Center for Soft Matter Research, and Eric Vanden-Eijnden at the Courant Institute.	New York 2019–now
Laboratoire Matière et Systèmes Complexes, Université Paris Diderot <i>PhD in Statistical Physics and Soft Matter</i> PhD title: “Mediated interactions in soft matter and surface tension of active fluid”. Advisors: Jean-Baptiste Fournier and Frédéric van Wijland. Visiting student at Tokyo Metropolitan University under the supervision of Pr. Shigeyuki Komura (January–March 2018) and at Gilman Hall at the University of California, Berkeley, with Pr. Kranthi Mandadapu (April–May 2019). Attended Beg Rohu summer school (2016) and Les Houches - Active Matter and Non-Equilibrium Statistical Physics summer school (2018).	Paris 2016–2019
École Normale Supérieure, International Center for Fundamental Physics <i>2nd year Master, Quantum Mechanics and Statistical physics</i>	Paris 2015–2016
École polytechnique, Paris-Saclay <i>1st year Master, High Energy Physics</i> Courses: Astrophysics, General Relativity, Particle Physics, Quantum Field Theory.	Palaiseau 2014–2015
École polytechnique, Paris-Saclay <i>Engineer's degree</i> Courses: Mathematics, Mechanics, Physics, Chemistry, Molecular Biology, Humanities.	Palaiseau 2012–2015
Lycée Louis Le Grand <i>Preparatory class for entrance to Grandes Écoles, Mathematics, Physics and Chemistry</i> Admission rank: École polytechnique 10/1350, École Normale Supérieure de Paris 24/1034.	Paris 2009–2012
Lycée Louis Le Grand <i>Scientific Baccalauréat</i> High school diploma in science, summa cum laude.	Paris June 2009

Experience

Teaching	
Université Paris Descartes <i>Teaching assistant in Physics for first year medical students (PACES)</i>	Paris 2016–2019
Internships	
Laboratoire Matière et Systèmes complexes - UMR 7057 <i>2nd year Master: Field mediated Interactions between Active Spins</i>	Paris January 2016–May 2016
Institut d'Astrophysique de Paris - UMR 7095 <i>1st year Master: Synchrotron Emission in relativistic shocks associated to Gamma Ray Bursts March 2015–July 2015</i> Advisor: Martin Lemoine.	Paris March 2015–July 2015
Laboratoire Central de la Préfecture de Police <i>Research and development in Fire Engineering.</i>	Paris November 2012–April 2013

Language and computer skills

Language: French (native speaker), English (fluent/professional use), Spanish (basic), German (basic)
Edition: Word, LaTeX, Excel, PowerPoint
Programming and simulations: Java, Python, C
